# Tilton's Gladiolus for 1925-1926

Get in your order while the selection is good. Our bulbs never made as satisfactory a growth as in the past season. This is partly from good soil, careful personal attention, and good stock as a foundation. We like to have the best and want our customers to share them. Eight years of careful selection brings many unsolicited testimonials from customers.

Perhaps you may not see the man you are doing business with, but the next best is a reference, which is sometimes important. We refer you to The National Bank of Ashtabula, Ohio, or the People's Building & Loan Company of Ashtabula, where we do business. Any old established house in Ashtabula will identify us.

Our list provides for single, dozen and one hundred bulbs. Six at dozen rate, twenty-five at hundred rate, or one thousand at nine times the hundred rate. We do not put up any order for less than one dollar. Please do not ask it. If bulblets are not listed in any variety in which you are interested, write for quotation.

As to making shipments of bulbs, we prefer to have them go forward by express where it is as convenient for a customer. If by parcel post we sent C. O. D. the carrying charges as a customer is usually unable to tell what transportation will be. If order is to be prepaid we refund if any left over or add bulbs if desired.

For large flowers, better order first size bulbs. If you want flowers and increase in stock, order sizes down to No. 4 and No. 5. If you are after the greatest increase in stock the first year, order bulblets and No. 6 size. Plenty of bloom from these the second year.

For succession of bloom we would suggest starting planting as early as April 15, and from then on it is a good idea to plant until May 30 for late bloom. Some authorities say you can plant as late as July 1 for late bloom. Our experience is that planting as late as this date is very unsatisfactory from all standpoints. Extreme late plantings get very little increase in bulblets, with flowers unsatisfactory.

Our mixtures cannot be beat. They are made up of all good kinds. Not an inferior variety on our place, and the bulbs you get from us at two dollars per hundred will give you satisfaction.

E. N. TILTON, Ashtabula, Ohio

SIZES: No. 1,  $1\frac{1}{2}$  inches up; No. 2,  $1\frac{1}{4}$  to  $1\frac{1}{2}$  inch; No. 3, 1 to  $1\frac{1}{4}$  inch; No. 4,  $\frac{3}{4}$  to 1 inch; No. 5,  $\frac{1}{2}$  to  $\frac{3}{4}$  inch; No. 6,  $\frac{1}{2}$  inch and under.
